

Remarks

These Remarks are in reply to the outstanding Office Action in the above-identified patent application. Claims 1-14 and 180-181 are currently pending.

Claims 6-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1 and 180-181 are rejected under 35 U.S.C. §102(e) as being anticipated by U.S. Patent No. 7,183,790 (*Neaves, et al.*).

Neaves, et al. has a listed foreign application priority date of August 21, 2003; however, the instant application claims priority to United States Provisional Application No. 60/450,007 filed February 26, 2003. Accordingly, *Neaves, et al.* is not prior art under 35 U.S.C. §102(e) and it is respectfully requested that the rejection of claims 1 and 180-181 under 35 U.S.C. § 102(e) be withdrawn.

Claims 2-5 are rejected under 35 U.S.C. §103(a) as being unpatentable over *Neaves, et al.* in view of U.S. Patent No. 6,631,486 (*Komatsu, et al.*) and further in view of U.S. Patent No. 7,092,637 (*Haruyama*).

Claims 2-5 depend from claim 1 and therefore are patentable for at least the reasons stated above in regard to claim 1.

Based on the above Amendments and these Remarks, reconsideration of claims 1-14 and 180-181 is respectfully requested.

The Examiner's prompt attention to this matter is greatly appreciated. Should further questions remain, the Examiner is invited to contact the undersigned attorney by telephone.

The Commissioner is authorized to charge any underpayment or credit any overpayment to Deposit Account No. 501826 for any matter in connection with this response, including any fee for extension of time, which may be required.

Respectfully submitted,

Date: March 13, 2008
